

Why allied?

Quality connectivity and superior service from the experts next door.

INTERNET SOLUTIONS

Travel the globe at speeds ranging from 1 Mbps to 10 Gbps via Allied's multi-homed, highly redundant Internet Exchange Network.

VOICE & UNIFIED COMMUNICATIONS

Whether you need a phone system or you need a more dynamic source of connectivity for your existing PBX, Allied offers both cloud-based voice solutions as well as PRI and SIP Trunk options.

METRO ETHERNET TRANSPORT

Take advantage of the lowest latency possible and directly connect multiple offices and cloud computing data centers via highly secure, scalable ethernet transport.

DYNAMIC ETHERNET

Fully integrate all Internet, Voice and Data connectivity securely with one investment in a single, high capacity connection.

More than Just a Connection...

Allied Telecom is the region's most highly regarded network service provider. Based in Washington DC, serving the Mid Atlantic and Northeast Corridor, we're a single-source provider of Internet, Data Transport, Voice and Unified Communications services. For over 20 years Allied Telecom has been distinguished by the **expert, full service care** we provide to every client — no matter how big or small.

"I know I can rely on the entire team at Allied to be responsive to our needs."

Allied Client Sean Stickle, CCO/CDO of the Physician Assistant Education Association

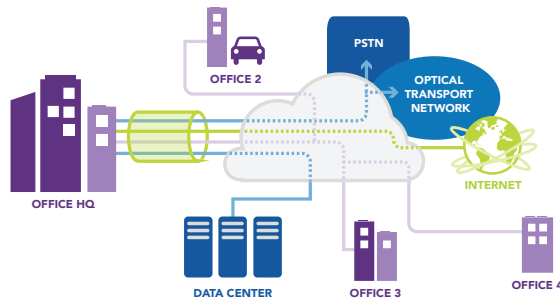

We Solve the Last Mile, First

- Allied brings the core network right to your office suite. We are not slowed down or constrained by the limitations of big phone companies.
- We are uniquely positioned to support your critical applications, expansion plans, and even same-day installations (where available).
- Allied's proven team takes great pride in building strong relationships with our clients, getting to know their challenges and business objectives to ensure that technology decisions align with strategic plans.
- Allied's customized solutions and expert service will support your enterprise and provide peace of mind.

We're your full service Internet, Data Transport, Voice and Unified Communications solutions provider. We have the products and enterprise-class services to deliver what you need, when you need it.

Trust Allied to ensure the highest quality, most reliable data and voice services to keep your operations running smoothly.

Whether you need connectivity to the cloud or a phone system, Allied will help you efficiently manage your connections with unmatched expertise and an unparalleled client experience.
