

allCloud™ Mobility

To keep business travelers and field staff connected on the road, **AllCloud™ Mobility** allows remote employees to use their business number on any Android or iOS smartphone device.

Seamless Voice Experience ON-THE-GO

Do business your way! Allied offers two mobility app options for your Android or iOS smartphone. Simply decide whether you'd rather place and receive business calls using your existing mobile minutes or data/WiFi, and whether you want extra communication features such as 1-to-1 video calls.
